Harco Fittings LLC Price Increase

April 1, 2026

TO OUR VALUED CUSTOMERS:

Recent geopolitical events have disrupted global energy markets, resulting in higher costs of energy, fuel, transportation, and key raw materials used in the production of our fittings products. While resin supply appears stable, cost volatility continues to pose risk and the outlook remains unpredictable.

As a result, effective April 13, 2026, we will increase prices by 10% (*current list x 1.10*) on all Turf Irrigation and Municipal products, including PVC, Philmac and HDPE fittings, and by 5% (*current list x 1.05*) on all Ductile Iron fittings. Updated price lists will be available online prior to April 13 at www.harcofittings.com.

Thank you for your patience and understanding as we navigate this latest challenge impacting our industry. As new information becomes available, we will continue to keep you informed.

Please contact your Harco Fittings LLC Sales Representative with any questions you might have regarding this announcement.

We appreciate your continued support of Harco Fittings LLC.
